

QMS Refresher BY2025-26|Q1

Points: 100/100

1. Enter your Employee ID *

1871

✓ **Correct** 10/10 Points

2. Which of the following is NOT typically a part of the Causal Analysis process? *

- ☐ Identifying the symptoms of the problem
- ☐ Documenting the history of the incident
- ☐ Analyzing the root cause of the problem
- ☒ Implementing temporary fixes without investigating the root cause

✓ **Correct** 10/10 Points

3. What is a performance requirement? *

- ☐ Functional requirement.
- ☐ Business requirement.
- ☒ A requirement that imposes condition on a functional requirement. E.g.: specifications of speed, accuracy, memory, etc., under which the given function must be performed.
- ☐ None of the above.

✓ **Correct** 10/10 Points

4. Which of the following is the first step in the Causal Analysis process? *

- ☐ Identifying possible solutions
- ☒ Defining the problem and gathering data
- ☐ Implementing corrective actions
- ☐ Evaluating the effectiveness of the solution

✓ **Correct** 10/10 Points

5. What is the key purpose of baselining requirements? *

- ☐ To ensure that the project schedule is kept on track.
- ☒ Ensure consistency, Scope Control & Effective project management and Risk Reduction.
- ☐ To finalize the project budget.
- ☐ To finalize the technical architecture of the system.

✓ **Correct** 10/10 Points

6. What is the role of corrective actions in the Causal Analysis and Resolution process? *

- ☐ To provide a temporary fix without investigating the root cause
- ☒ To address the identified root cause and prevent future occurrences of the problem
- ☐ To document the resolution for future reference
- ☐ To ensure that the issue happens more frequently

✓ **Correct** 10/10 Points

7. What is the primary objective of requirement management? *

- ☐ To delay project milestones
- ☐ To ensure some requirements are equally addressed
- ☒ Process of documenting, analyzing, tracing, prioritizing and agreeing on requirements and then controlling change and communicating to relevant stakeholders
- ☐ To delegate requirement analysis to external teams

✓ **Correct** 10/10 Points

8. What is the "5 Whys" technique used for in Causal Analysis? *

- ☐ To gather customer feedback
- ☐ To analyze the financial impact of an issue
- ☒ To dig deeper into the problem by asking "Why?" multiple times until the root cause is identified
- ☐ To identify the fastest solution for a problem

✓ **Correct** 10/10 Points

9. Why is it important to involve all relevant stakeholders during Causal Analysis? *

- ☐ To speed up the process and avoid delays
- ☒ To gather diverse perspectives and ensure a comprehensive understanding of the problem
- ☐ To avoid unnecessary documentation
- ☐ To avoid any escalation of the issue

✓ **Correct** 10/10 Points

10. What is Requirement Prioritization used for ? *

- ☐ To allocate resources efficiently for development.
- ☒ To determine which requirements should be implemented first based on their importance.
- ☐ To reduce the project scope.
- ☐ To monitor the quality of the project outputs.

✓ **Correct** 10/10 Points

11. What does bidirectional traceability in a project refer to? *

- ☐ The ability to trace the project's budget and expenses
- ☐ The ability to track project timelines and deadlines

- ☒ Degree to which a relationship can be established between two or more products of the development process, especially products having a predecessor / successor or master-subordinate relationship to one another.
- ☐ The ability to document every meeting and decision made during the project
